Western Seeds for Western Growers

TESTED SEEDS

35th YEAR

THIS BUSINESS WAS ESTABLISHED IN 1891, 35 YEARS AGO, BY MR. DANIEL A. WHITE AND MR. O. C. BREWSTER, FATHER AND GRANDFATHER, OF THE PRESENT OWNERS HARLEY O. AND FLOYD M. WHITE.

STARTING WITH THE IDEA THAT STRICT HONESTY AND PROMPT SERVICE, COMBINED WITH THE BEST SEEDS AND MERCHANDISE OBTAINABLE, WOULD BUILD UP A BUSINESS, IT HAS GROWN TO ONE OF THE LARGEST SEED AND FEED STORES ON THE PACIFIC COAST.

THE FIRST STORE ROOM USED CONTAINED ABOUT 1000 SQUARE FEET.

THE FOUR LARGE BUILDINGS NOW USED CONTAIN OVER 40,000 SQUARE FEET.

BOTH MEMBERS OF THE PRESENT FIRM HAVE GROWN UP IN THE BUSINESS AND THEIR LONG YEARS OF EXPERIENCE ARE AT THE DISPOSAL OF THE CUSTOMERS AND FRIENDS OF THE FIRM AT ALL TIMES.

THE BUSINESS HAS GROWN FROM YEAR TO YEAR UNTIL THE LAST YEAR WAS THE BEST IN THE FIRMS HISTORY.

THE SAME HIGH IDEALS WILL BE FOLLOWED IN THE FUTURE AS IN THE PAST AND IT IS OUR HOPE THAT THE BUSINESS WILL CONTINUE TO GROW AS THIS GREAT PACIFIC COAST WILL CONTINUE TO GROW AND CONTINUE TO BE THE FINEST COUNTRY IN THE WORLD.

WE ASSURE YOU THAT YOUR BUSINESS IS APPRECIATED AND WE WILL CONTINUE TO DO EVERYTHING IN OUR POWER TO PLEASE YOU AND MAKE YOU ONE OF OUR MANY THOUSANDS, A SATISFIED CUSTOMER.

ONLY BY DOING SO CAN WE HOPE TO SUCCEED.

Special Re-Selected Stock for 1926

By reason of their increased size, waved or fluted appearances and charming blendings of harmonious colors, the new "Spencer" type may be appropriately described as Truly Gigantic "Orchid Flowered." The flowers are not only of extremely large size, and attractively waved or crinkled, but are distinct also in having the outer edges of the standard and wings serrated. The standard is broad and tall; the wings are broad, well spread and generally held erect by the keel.

SEED GRAINS

Write for prices when in the market.

Recleaned Marquis Spring Wheat. The heaviest yielding spring wheat grown in the Northwest. Heads are beardless, chaff smooth and kernel dark amber in color. Very heavy and grades as hard wheat.

Huston or Grass Wheat. A spring wheat that is recommended by O. A. C. for planting in this valley as it is a good yielder and does well on nearly all kinds of land.

Kinney Wheat. An old standard wheat that has been grown for years here and always produces a good crop. May be sown either fall or spring.

Gray Oats. Sown both fall and early spring and the standard oat for this valley and western Washington and Oregon.

White Oats. Have some very choice seed oats of this well known variety, clean and fine quality.

Spring Rye. Makes a good crop sown in the spring.

Fall Rye. Always makes a crop and can be sown on poor land that will not raise other grain. Makes an abundance of pasture and green feed and also a fine cover crop for orchards and berries.

Hanchean Spring Barley. Usually does best on light land but is grown nearly everywhere.

Fall Barley. Barley is being planted in the fall and has proven very productive. The acreage has increased several hundred percent the last year and farmers are well satisfied with the results.

Cheat Seed. Recleaned. This is used as a hay crop especially on wet lands and when cut and taken care of at the right time makes a good hay.

Canada Field Peas. Field peas are becoming more popular every year. They make a good hay; make a great hog feed and are used for silos. **Lb. postpaid, 20c; not postpaid, 1b. 10c; 100 lbs. market price.**

VETCHES

Oregon Vetch (Common Vetch). One of the best forage plants grown on the Pacific Coast. It furnishes an abundance of green, makes a fine hay; used for silos, pasture, and is unexcelled as a cover crop. **Price, per 100 lbs. \$6.50.**

Hungarian Vetch. This is proving a wonderful vetch; it seems to be adapted for land too heavy and wet for common vetch; is aphesis proof; seems to stand more freezing than other vetches and is very productive. Can be used for all purposes that common vetch is used for with the assurance of making a crop when other vetches are a failure. **Price, per 100 lbs. \$6.50.**

Sand or Hairy Vetch. This thrives on poor, arid, sandy soil, but will grow anywhere. Is a winter vetch and should be planted in fall when to be cut for crop or seed. Can be seeded in spring for pasture. **10 lbs. postpaid, \$2.00; 100 lbs., by freight or express collect, \$12.00.**

Vetch and Oats. This is a mixture prepared for hay and is the usual mixture sown in this valley. Consists of recleaned grey winter oats and Oregon vetch. **Write for prices.**

Tangier Field Peas. This is the variety that is recommended so highly by O. A. C. as suitable for this section. **Lb. 15c; postpaid, 25c; 25 lb lots at 12c per lb. not postpaid. Write for quantity prices.**

SPRAY MATERIAL

We carry the largest stock of the most reliable spray materials in the city. You will find that our prices are the lowest that can be made on first class goods. You do not want to use anything but the best as it is money thrown away to use poor spray material. Spare the Spray and Spoil the Fruit. Never before has it been so necessary to protect fruit and vegetables crop against the ravages of insects and fungous diseases. This applies to commercial plantations and to the small orchard or garden. The question as to whether spraying pays has been answered. The real problem is one of improving sprays and their methods of application.

S.W. Spray Oil, or Spray Mulsion. For Scale, Thrip, etc. From experiments we have made the past ten years, we find that for Scale on Fruit trees, there is no spray that has the killing effect of the oil spray. Should be applied as a dormant spray for this purpose. Spray-Oil, so far has been the only remedy for thrips; should be used with Black Leaf 40 and applied as soon as the thrip shows. Do not delay as the damage is done within a day or so and crop ruined. 5 gal. can, \$2.50; 50 gal. bbl. \$15.00.

S W. Lime Dry Sulfur. This is taking the place of the old Lime-Sulphur Solution as it has all the advantages and none of the disadvantages of this spray. A 100 lb. drum makes as much spray as a 600 lb. bbls. of the old spray. From tests made the last few years, it has surpassed all other sulphur sprays in various tests. No. 35, width 8½ in. each \$1.65; No. 36, width 12 in. each \$2.20; No. 13, width 18 in., each \$2.50; No. 37, width 24 in., each \$3.10.

HODGIN-BREWSTER FEEDS

CHICK SCRATCH FEED

Prof. Brewster, who was so many years at O. A. C., and one of the best known poultry experts on the coast, supervises the preparation of all their poultry feeds and will not allow any feed to go out until he knows it is right. This Chick Scratch is made to produce fine, healthy chicks and it does it.

BABY CHICK MASH

With Milk. For those who do not have plenty of milk, this is the mash you should feed. Its made right.

MILK GRAIN CHICK MASH

This is made for those that do not have plenty of milk or no milk at all. It is a wonderful Chick Mash and certainly gives wonderful results.

PLAIN CHICK MASH

This is prepared for those that have plenty of milk to feed the chicks and is slightly cheaper on that account.

DEVELOPING MASH

You can buy it with milk in or without, depending upon whether you have plenty of milk to feed the chicks or not. Its a very high grade article.

DEVELOPING SCRATCH FEED

A dandy mixture of the various grains, properly prepared for growing chicks. Should be fed, of course, with the Developing Mash.

EGG PRODUCER

This is the special pride of Prof. Brewster and he takes great pleasure in being sure that it is always right and will produce the maximum results. You surely will be well pleased if you feed your flock this great egg mash.

DAIRY RATION

Mr. Hodgen is one of the most successful feeders and makers of Dairy Feeds in the U. S. More cows have made worlds records from his feeds and fed under his direction in the last few years than any other one man. He must know how to compound dairy feeds or the records could not have been made. You can profit by his knowledge by feeding his feeds. And they cost no more than other feeds.

ALL KINDS OF FEEDS AND HAY

Besides the various feeds mentioned, we carry a complete stock of the various grains, all kinds of mill feeds, ground grains, oil meals, and the various kinds of hay and straw. You will always find our prices as low as first class feeds can be sold for.

We also, handle many special feeds, including Dried Beet Pulp, Feed Molasses, Sterilized Bone Flour for stock, etc.

POULTRY TIN WARE

We handle the Hoeft line which is the most complete line on the market of Drinking Fountains, Feed Troughs, Self Feeders, Grit Boxes, Dry Mash Hoppers, etc. Send for the special catalogue.

CHERRO POULTRY FEEDS

This well known line of Cherro Poultry Feeds is manufactured in Salem and gives excellent results.

CHERRO EGG BUILDER

A properly blended mixture built to produce eggs. It is used by many poultrymen of this vicinity and all Western Oregon.

CHERRO CHICK FEED

This is well mixed chick feed and properly milled out of high grade grains, containing a heavy percentage of Chick Oat Grotes.

CHERRO CHICK MASH

With Dried Milk. Is giving excellent results and the chicks surely like it and do well when fed this mash.

CHERRO DEVELOPING MASH

With Dried Milk. This feed follows the Chick Mash and should be fed until you change to a good egg mash.

CHERRO GROWING SCRATCH

This follows the Chick feed and should be fed until chicks are large enough to start on the regular grain feed.

DAIRY FEEDS

CHERRO COW CHOW

This high grade dairy feed gives excellent results as it is a proper blending of mill feeds, oilmeals and ground grains to produce a first class milk.

You will find the prices on Cherro Poultry and Dairy Feeds are as low as the market affords on quality feeds.

We will be glad to fill your orders for any of the above feeds as we carry a large stock at all times.

FISHER'S FEEDS

These well known poultry feeds are manufactured in Seattle, by the Fisher Flouring Mills Co., under Judge Coat's direction.

Judge Coats is one of the best known poultrymen in the U. S. and he has direct charge of the poultry feeds.

FISHERS CHICK MASH

This is one of the best chick mashes made and while it costs more than many others, it is surely worth more from the results it produces. A wonderful mixture.

FISHER'S CHICK FEED

This is the grain feed that you should feed with the chick mash and is the best that can be produced. You certainly will grow those fine healthy chicks if you use the above.

FISHER'S DEVELOPING MASH

When you change from Fisher's Chick Mash you feed this wonderful developing mash containing milk and Cod Liver Oil with the proper mixture of ground meals and grains. It should be fed to your pullets until you want them to lay. From many tests we have known of, pullets fed on this mash, have weighed 25% more than the same age pullets fed on other feed.

FISHER'S GROWING FEED

This is the grain feed that follows Fisher's Chich Feed and is a properly balanced feed to go with Fisher's Developing Mash.

FISHER'S EGG PRODUCER

This is the largest selling egg mash in the Northwest. It is not price that sells it because it is such a high grade mash that it usually sells for more than any other mash as it costs more to make. You cannot sell a poultryman any other mash who has fed this great feed. Thousands of successful poultrymen will verify this statement. Just feed a sack; watch the result and you will be one of the many thousands that will continue to feed it.

We are Fisher's Exclusive Dealer for this territory.
